

Artwork Guide

Barracuda and Excalibur roll-up banner stands

Please supply artwork at actual size or a percentage thereof and state which percentage you are using.

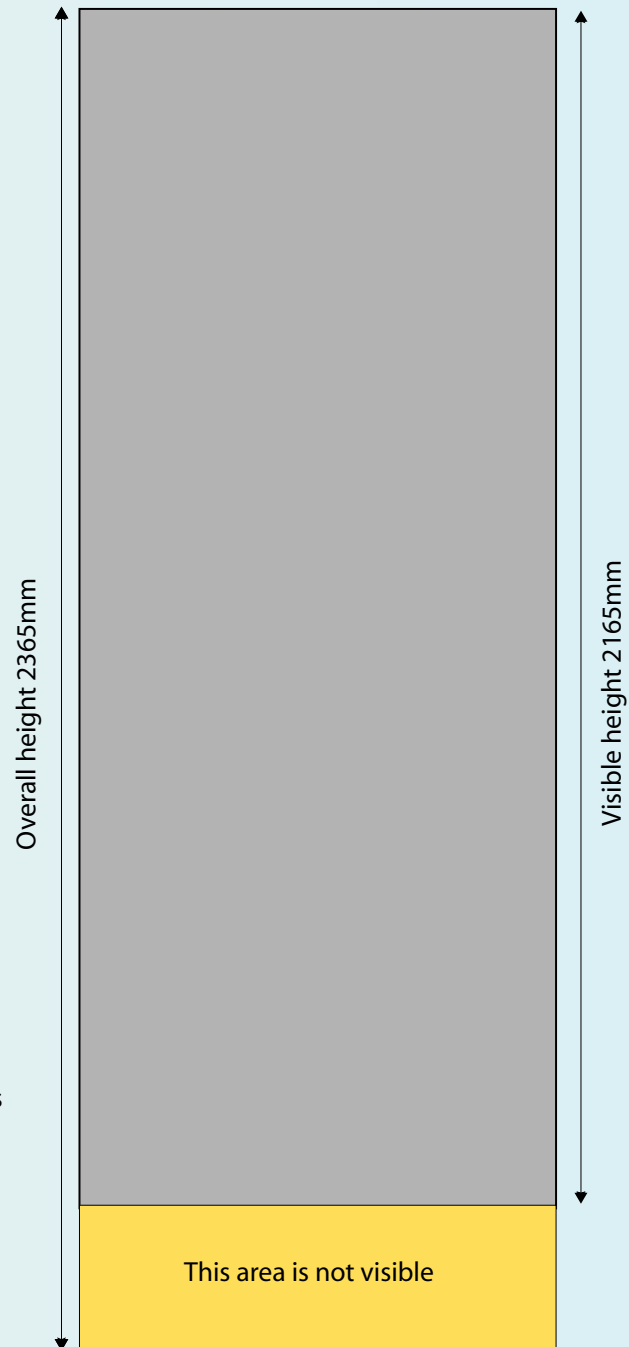

'Press optimised' PDF preferred, with crop marks and embedded or outlined fonts

Images (photos, scans etc) should be in CMYK format, and at a resolution of 480dpi if working at 25% of final size (equal to 120dpi at 100%)
We can still produce graphics from as low as 70dpi but the quality cannot be guaranteed.

BLEED

No bleed is required when producing bannerstands simply supply a single page document with the overall area shown

Width 800, 1000, 1200, 1500mm depending on model required

this document is intended as a guide.
If you would rather speak to someone regarding the set up of artwork or if you would like us to design your system please contact us:-
